Charging

1 Connect the digital media player to a computer to charge it's internal battery.

Loading Files

1 Connect the unit to a computer (Windows, Apple, or Linux) using the **MINI-USB** connection and the included USB cable.

2 Once connected, the unit will show up on the connected computer as if it were a connected USB thumb drive, external hard drive, or memory card.

3 Drag and drop the desired audio, video, photo, or ebook files into the unit's drive location on the connected computer.

File Compatibility:

MUSIC: MP3, WMA
VIDEO: MTV
VOICE: WAV
PHOTOS: JPEG, BMP
EBOOK: TXT

4 After the files are loaded onto the unit, right-click on the drive and eject it from the computer, then disconnect the USB cable.

Music

1 Power the digital media player on.

2 Navigate to the Music icon on the main menu and press the **PLAY** button.

3 Press the **PLAY** button to begin playing music from your digital media player.

Play Options

While in Music mode, press the **MENU** button to access the Music sub-menu.

File
Use to access a file view of the music stored on the MP3 player.

Photo

1 Power the digital media player on.

2 Navigate to the Photo icon on the main menu and press the **PLAY** button.

3 Navigate through the file browser using the **VOLUME** and **SKIP/SEARCH** buttons, and press the **PLAY** button to select a JPEG or BMP photo file.

4 Press the **VOLUME** and **SKIP/SEARCH** buttons to cycle through all of the photos in the current directory.

5 Press and hold the **MENU** button to return to the Main Menu.

Record

1 Power the digital media player on.

2 Navigate to the Record icon on the main menu and press the **PLAY** button.

3 The digital media player will begin recording automatically.

4 Press the **PLAY/PAUSE** button to stop or resume recording.

5 Press the **RETURN** button to return to the Main Menu.

Voice

1 Power the digital media player on.

2 Navigate to the Voice icon on the main menu and press the **PLAY** button.

3 Press the **SKIP/SEARCH** buttons to cycle through the available recordings.

4 Press the **PLAY** button to begin playing the selected recording.

5 Press the **RETURN** button to return to the Main Menu.

Video

File-type Requirements: MTV

Use the included Video Conversion Software to convert video files to the MTV format so that they can play on the digital media player.

1 Power the digital media player on.

2 Navigate to the Video icon on the main menu and press the **PLAY** button.

3 Press the **VOLUME** and **SKIP/SEARCH** button to navigate through the file browser, and press the **PLAY** button to select an MTV video file.

4 Press the **RETURN** button to return to the Main Menu.

Running Video Conversion Software

System Requirements: Windows 98, ME, or XP

1 Connect the digital media player to a computer (Windows, Apple, or Linux) using the **MINI-USB** connection and the included USB cable.

2 Once connected, the unit will show up on the connected computer as if it were a connected USB thumb drive, external hard drive, or memory card.

3 Open the drive for the connected digital media player on your computer to view the file and folder contents

4 Double-click on the "VideoConvert" file to open the Video Conversion software.

Using the Video Conversion Software

System Requirements: Windows 2000, ME, or XP

1 Follow the "Running Video Conversion Software" directions on the previous page.

2 After the program opens, click on the "Input Video" button in the Video Converter software.

3 Browse to and double-click on any of the following video file types:

AVI, WMV, ASF, MPG, MOV, QT, VOB, RM, RMVB, MPEG4, 3GP

4 Click on "Output Video" to select a destination for the converted video file.

5 Click "Start Conversion" to begin converting the selected video file.

This video conversion software may be blocked by some anti-virus applications. If you are experiencing issues when attempting to run this program, please disable your anti-virus software or try using another computer. Re-enable your anti-virus software immediately after you finish using the video conversion software.

Please note, disabling your anti-virus software exposes your computer to potential threats. Disable at your own risk.
